Re: Notice of Proposed Rate Change For Interstate Natural Gas Company,
Case No. 2006-00122

Dear Ms. O'Donnell:

Interstate Natural Gas Company ("Interstate") is in receipt of the Initial Data Request of Commission Staff in the referenced proceeding. While Interstate is diligently working to complete its responses as required, it will not be able to do so in the time frame set out in the Request. Responses to certain of the data requests, specifically Nos. 5.a. and 5.c., are taking much longer to formulate than expected.

For this reason, Interstate respectfully requests an extension of time, to and through June 20, 2006, to respond to these Data Requests.

The Commission's granting of this requests for extension of time would be appreciated.

Sincerely,

Morris Kennedy
